“You have to see this just for the Spike Lee joke, I almost spit milk out my nose when I heard it.”

–Matt Levy, Comedy Stray Notes

Stand-Up Science is a multi-media comedy show about science that's equal measures hilarious, educational, and deeply personal. NYC based scientist and comedian Ben Miller uses stories on topics ranging from his medical condition to his childhood history with milk as jumping off points for scientific and comedic exploration. This multi-media comedy show employs pictures, graphs, and videos to make science both approachable and delightful. Stand-Up Science had a completely sold-out run at the 2022 Edinburgh Fringe Festival.

TOURING INFORMATION:

Themes: Science, health/illness, comedy

Age: 14+ due to suggestive, but not too explicit content.

PRAISE FOR STAND-UP SCIENCE:

“One of NYC’s best pound for pound joke writers Ben Miller is unsurprisingly a scientist... you have to see this just for the Spike Lee joke, I almost spit milk out my nose when I heard it.”

–Matt Levy, Comedy Stray Notes

Fantastic show! Ben was a delight. Deeply personal, highly engaging, and rather educational. Highly recommended.”

- Audience member

“Ben is genuinely engaging, and very funny (for a geek!)”

– Audience member

“THIS GUY IS JUST GREAT. So funny, very unique and so so likeable, I felt completely relaxed and enjoyed every second. Not only is his material brilliant and clever but his ad libs are spot on and he always feels genuine and likeable.” – Audience member

“Have you ever seen a comedian cite their sources? Ben Miller does. Check it out, it’s worth it.” – Audience member

ABOUT BEN:

Ben Miller is an NYC based comedian who has been working for the past 6 years. In that time, he's performed at all the top clubs in the city such as Broadway Comedy Club, Stand Up NY, Dangerfield's, Carolines, and The Stand. He's currently ranked as the top roast battler in NYC. He also has a degree in Materials Science and Engineering from Columbia University. He's worked with electron microscopes, been a teacher on a science bus, 3D printed cookies, and diffused a few bar fights while on stage.
